HAVEN L. SCOTT, SUPERINTENDENT.

Portsmouth Almshouse, Dec. 31, 1872.

REPORT

OF THE

MASTER OF THE HOUSE OF CORRECTION.

December 31, 1872.

To the Hon. Mayor and Committee of House of Correction :

GENTLEMEN:—I would respectfully report that the number of commitments to the House of Correction from Jan. 1, 1872, to Dec. 31, 1872, was 52—32 males and 20 females—for the following causes :

Drunkenness, 29 ; brawl and tumult, 9 ; common drunkards, 8 ; disobedience at Reform School, 1 ; vagrant, 1 ; throwing stones, 1.

12 paid fine and cost ; 5 deserted ; 30 served time ; 1 discharged by order of Mayor ; 4 remaining at the House.

Number of day's labor performed by male prisoners from Jan. 1, 1872, to Dec. 31, 1872, 739.

Number of weeks labor performed by female prisoners from Jan. 1, 1872, to Dec. 31, 1872, 141.

Amount of fines and cost collected,	\$131 80
“ paid City Marshal,	131 80

ANNUAL REPORT
OF THE
CITY SOLICITOR,
For the Year 1872.

To the Honorable Board of ^AMayor and Aldermen :

At the beginning of the present year two actions were pending in the Supreme Judicial Court, in which the City was defendant.

The Suit in equity, Rockingham Ten Cent Savings Bank *vs.* City of Portsmouth, was decided substantially against the city, at the Law Term held in June, and I have attached a copy of the decision in this case to my report.

At the last session of the Legislature an act was passed, making real estate of Savings Banks taxable in the towns where situate, which settles this question in regard to future taxation. This suit, however, remains upon the docket for the purpose of deciding whether the taxes paid by the Bank under protest shall be refunded by the city ; also, whether the tax assessed last year shall be paid.

As the manner of taxing real estate of Savings Banks for the future is made plain by recent Statute, I would recommend that a committee from your Board be at once appointed to confer with the officers of the bank in regard to this matter. This case will be for hearing at the January term of the Supreme Judicial Court, and any settlement or adjustment should be made before that time.

The action, John Stack *vs.* the City, was tried at the October Term, 1872, and a verdict rendered against the City

for nine hundred and fifty dollars. Exceptions were taken to the ruling of the Court by council for the City, and carried up to the Law Term to be decided by the full Bench. Should these exceptions be overruled and the Court order judgment on the verdict, I would recommend that an action be commenced at once against the owner of the land where Mr. Stack was injured.

Respectfully submitted,

A. F. HOWARD, *City Solicitor.*

ANNUAL REPORT
OF THE
CITY MARSHAL,
FOR THE YEAR 1872.

To the Hon. Board of Mayor and Aldermen:—

GENTLEMEN:—I respectfully make the following report of the number of persons arrested and lodged, and the cause of the arrests for the year 1872:

Assaults, 56; Arrested on Suspicion, 7; Arrested in default of bail, 1; Brawl and Tumult, 41; Bigamy, 1; Breaking Glass, 2; Breaking and Entering, 1; Common Drunkards, 12; Committing Rape, 2; Drunk, 579; Disorderly Conduct, 21; Discharging Fire Arms, 2; Deserters from House of Correction, 6; Disobeying Parents, 2; Fast Driving, 5; Fornication, 1; Highway Robbery, 1; Incendiary, 1; Keeping Disorderly House, 2; Larceny, 47; Malicious Mischief, 2; Mutiny, 8; Playing Truant, 3; Playing Ball, 1; Runaways from Home, 1; Street Walking, 7; Swindlers, 1; Safe Keeping, 4; U. S. Deserters, 36; Using Profane Language, 4; Violation of City Ordinance, 7; Vagrant, 4; Violating Genl. Statutes, 1. Total, 869.

Six hundred and eighty-three persons have been lodged in the Station House during the year.

There has been collected in payment of fines and costs during the year the sum of \$1434 42.

There has been collected during the year the sum of \$111 00 for Dog Licenses. All the above sums have been accounted for in my quarterly reports and have been paid to the City Treasurer and receipts deposited in the City Clerk's office.

Respectfully submitted,

FRANK B. JOHNSON, CITY MARSHAL.

ANNUAL REPORT
OF THE
CHIEF ENGINEER OF THE FIRE DEPARTMENT,
FOR THE YEAR 1872.

To His Honor the Mayor and City Councils :

GENTLEMEN :—In compliance with the ordinance defining the duties of Chief Engineer, I herewith present my third annual report of the condition of the Fire Department, a list of the fires which have occurred during the past year, the amount of property belonging to the City under my charge, and a list of reservoirs, wells, water stops and hydrants, with their location.

Steamer No. 1 cannot be relied upon ; it is too heavy an engine to haul rapidly through the streets. Last year it was repaired at a cost of \$1.100, and since then a large amount has been spent in order to keep it in repair. I consider it a very expensive machine to keep, and I would respectfully recommend that the City Councils buy a lighter machine, and keep this one in reserve.

Steamer No. 2 is in good working order. A few repairs have been made on it during the past year. It is a light and reliable machine.

Steamer No. 3 is also a reliable machine.

The Hook and Ladder Carriage and all its apparatus is in good order, with one exception—it needs painting.

The Hand Engines are in good order, but the Hose belonging to them is nearly worn out.

Our Supply Wagon, and the Horse Hose Carriage, are in good running order.

The Engine Houses are in good condition, excepting the floors of Nos. 1, 3 and 5, which need repairing.

The Reservoir on Haymarket Square has been repaired, and now it can be kept full, but the others remain in the same condition as at the close of last year.

I would respectfully call your attention to the need of the following articles for the Fire Department, several of which I have already recommended.

An Alarm Bell is much needed on the Cabot Street School House.

A suitable house for the Hook & Ladder truck is very much needed, as the present house is in a bad locality, and consequently much time is lost while waiting for sufficient force to pull it up the hill into the street.

I would ask that the City horses be kept in readiness at all times in case of fire. Of what use are these horses to us in case of fire in the day time? we can do nothing without them, and often times they are some two miles from the centre of the City at work. If the plan of reducing the members of Steamer No. 2 is adopted, the horses will then be our only dependence; we shall have no means of hauling either of the steamers to a fire, unless they are near by.

The greatest need for the benefit of the public and Fire Department is more water, especially in the western portion of the city, and this can be had. The building of the small reservoir on Union Street, as recommended by Mr. Josiah G. Hadley, proved to us that plenty of water can be obtained from the springs in that vicinity, and I would recommend that a larger reservoir be built in that neighborhood.

The manual force of our department has been carefully organized and detailed, so as to render prompt and efficient service whenever required.

Harmony of purpose and unity of action exist among the members and between the companies; each member, knowing how much depends on him personally for the accomplishment of the work to which he is called from time to time, enters upon it with a consciousness that it is a duty (not fun or pastime) that demands prompt action; and it is a source of great gratification to me to be able to

point to the unfaltering zeal and untiring energy which our firemen show in the discharge of their various duties, and the cheerful and ready response they give to all calls upon them, which entitle them to the warmest praises of the entire community.

I would urge upon you the necessity of increasing the pay of our firemen, as a recompense for the arduous duties which they perform; their present pay is far too small.

In conclusion, I take this opportunity to tender my sincere thanks to His Honor the Mayor, the Board of Aldermen, and Members of the Common Council, for their earnest and active efforts to promote the interest and efficiency of this Department; to the Board of Engineers for the prompt and faithful manner in which they have discharged their duties; also to the Officers and Members of the several companies, who have been, and are always ready and willing; and I trust that our citizens will appreciate their efforts.

Respectfully submitted,

STEPHEN L. MARSTON,

Chief Engineer P. F. D.

Portsmouth, N. H., Dec. 31, 1872.

STEAM FIRE ENGINE No. 1, HOUSE ON COURT STREET.

This Engine was built by Messrs. Campbell & Whittier of Roxbury, Mass.

Put into service in 1865.

It has one steam cylinder, nine inches in diameter, and one double acting vertical pump, 5 1-2 inches in diameter and 12 inch stroke.

The weight of the engine, as drawn to the fire, is eighty hundred (8000) pounds.

The Company number 26 men. J. Frank Shannon, Foreman; William Lovell, Engineer; William H. Gardner, Fireman.

Schedule of Property in House No. 1.

1 Engine,	5,000 00
1 Four wheel hose carriage,	700 00
1 Double harness,	25 00
1 Stove and fixings,	17 00
5 Lanterns \$16, 4 oil cans \$2.50,	18 50

Kearsarge.

STEAM FIRE ENGINE NO. 3, HOUSE ON COURT STREET.

This Engine was built by the Amoskeag Manufacturing Company. Put into service in 1870.

It has two double acting plunger pumps, lined with brass, 4 inches in diameter, and 8-inch stroke, with rubber valves and brass valve seats. It has two steam cylinders, 6 7-8 inches in diameter, with eight-inch stroke, worked upon the same piston rod with the pump. The weight of this engine, as drawn to fires, is six thousand four hundred (6400) pounds. The Company numbers 27 men. Ira C. Seymour, Foreman; Charles Manent, Engineer; George N. Jones, Fireman; Enoch Jones, Driver.

Schedule of Property in House No. 3.

1 Engine,	4,160 32
1 Four wheel hose carriage,	600 00
1 Stove and fixing \$22, 3 chairs \$6 75, 1 table 24,	32 75

REPORT
OF THE
STREET COMMISSIONER
For the Construction of Sidewalks,
For the Year 1872.

To the Mayor and Aldermen :

GENTLEMEN: There has been expended by me on account of laying and repairing sidewalks during the past year, the sum of \$851 70 as follows :

26500 bricks,	357 77	
274 feet edge stone,	165 40	
Sand and carting,	60 20	
Labor,	268 33	
	<hr/>	851 70

15325 bricks have been used on sidewalks.

1000 bricks were used on City Building.

10175 bricks on hand.

I have collected and paid to the City Treasurer the sum of \$280.19.

WM. F. HAM, *Street Commissioner.*

Dec. 31, 1872.

REPORT

OF THE

SCHOOL COMMITTEE

OF THE

City of Portsmouth

FOR THE YEAR

1872.

PRINTED BY ORDER OF THE MAYOR AND ALDERMEN.

PORTSMOUTH:

PORTSMOUTH JOURNAL STEAM PRINTING OFFICE.

1873.

REPORT
OF THE
SCHOOL COMMITTEE
FOR THE YEAR 1872.

PORTSMOUTH, Feb. 20, 1873.

To the Hon. Mayor and Aldermen :

GENTLEMEN :

In accordance with the requirements of the statute, the School Committee herewith submit to you their annual report of the Schools of the City.

In the performance of the duty devolving upon the Committee they have endeavored to exercise their best judgment in the selection and the retention of teachers, whose qualifications eminently fit them for their several responsible stations; and they have striven to be vigilant and faithful in their examinations and general superintendence of the Schools.

Early in the past year, through the suggestion of some of its members, and through the kind courtesy of Mr. J. G. Edgerly, Superintendent of the public schools of the City of Manchester, the Committee were favored with a visit from that gentleman, who presented to them many valuable suggestions and much information as to the system adopted in the public schools of Manchester, and its

practical working value there, from which it was apparent that with the peculiar character of the population of that city, the services of this accomplished Superintendent of their schools were not only very effective in the promotion of order, but indispensable. At the same time your Committee have not been so far impressed with the necessity of such a system of superintendence over our own schools as to lead them to adopt it.

During the past year nothing has occurred to prevent the usual attendance in our schools of all grades, and the condensed statistical report which is appended, shews very slight variation in the number of pupils from the year preceding.

The Committees of the several districts have reported verbally to the whole assembled Committee their satisfaction with the progress of education in those parts of our city under their especial care.

High Schools.

The Committee of the High Schools take pleasure in reporting the good order and well conducted system of study pursued in these schools. The examinations have been satisfactory.

The Boys' High School has been for the year under the charge of Mr. Lewis E. Smith, assisted by Mr. Stephen W. Clark; and the Committee have deemed it advisable to secure the services of Mons. M. Ladreyt, Professor of the French Language, to give lessons semi-weekly for the present winter, to a large class in the School.

The largest attendance during the year has been 70

The present number, 47.

divided as follows :

4th or graduating class of 1873,	6
3d class,	10
2d "	18
1st "	13

In July last, the following named young men graduated and received their Four Years' Diplomas :

Frederick Balcom Coleman,	John Woodbury Stimpson,
George Arthur Holbrook,	Charles Edward Stringer,
Cornelius Lewis,	Richard Irving Waldron,
Edward Curtis Matthews,	Albert Emery Woods.
Edwin Curtis Richardson,	

And at the same time the following named young men graduated and received their Three Years' Diplomas :

William Henry Canty,	Gustavus Peyser,
Wallace Hackett,	Andrew Peabody Preston,
Charles Freeman Larrabee,	Lewis Jackson Wyman.

The Committee of the High School entertain great doubts as to the utility of the present three years' course in the Boys' High School, and seriously contemplate a return to the uniform course of four years. The average number of males in all the grammar schools of the city is about one hundred and fifty, while the average number who graduate annually at the Boys' High School does not exceed fifteen. This small number may be regarded as selected, and entitled by their abilities, scholarship, and situation in life, to enter upon a more extended course of instruction; and we think that the four years' course, (three-fourths of which is devoted to English studies), is neither too long, nor too classical, even for those whose school education is to end at the High School.

The disposition of parents to take their children from school to engage in other pursuits at an early age, and before they have completed the full course of instruction

offered to them, is a great drawback upon our system of education, and occasions irreparable loss to the children and to the community. Those parents who submit to sacrifices and self-denials to maintain their children at school, commonly find that in so doing they have made the best possible investment for the benefit both of themselves and their offspring.

The examinations of the Girls' High School, under the charge of Mr. Aurin M. Payson, Principal, and Miss A. C. Morgan, Assistant, have been satisfactory.

The whole number attending during the year is 100

Average attendance, 90

Present number, 74

In July last a class of eighteen young ladies graduated, viz:

Alice M. Swasey,	Ella P. Payson,
Annie Blaisdell,	Florence Hayes,
Mary W. Harratt,	Sarah E. Tarlton,
Florence A. Ham,	Gertrude Parker,
Ida E. Shackley,	Emma F. Hilton,
M. Josephine Knowlton,	Clara E. Williams,
Corinda A. Cunningham,	Clara M. Dame,
Helen L. Philbrook,	Ida L. Marston,
Louise R. Rand,	Clara A. Brown.

The ability and good taste displayed by this class of young ladies in the graduating exercises, were strongly marked, and very gratifying to their teachers, friends and parents, as well as to your committee. The progress of education in this school is remarkable when the large number of scholars and the limited number of teachers is observed.

Respectfully,

J. P. BARTLETT,

Chairman of School Committee and High School Committee.

Expenditures of the School Committee,

FOR THE YEAR 1872.
